The elves are testing new tinsel–light combinations to find the next big holiday trend....

Question 1: The elves are testing new tinsel–light combinations to find the next big holiday trend. Write a query to generate every possible pairing of tinsel colors and light colors, include in your output a column that combines the two values separated with a dash ("‐").

```
SELECT DISTINCT (T1.color_name||'-'|| T2.color_name)as all_possible_color_combo
FROM tinsel_colors AS T1
CROSS JOIN light_colors AS T2;
```
