Kevin's trying to decorate the house without sending the electricity bill through the roof....

Question 1: Kevin's trying to decorate the house without sending the electricity bill through the roof. Write a query to find the top 5 most energy-efficient decorations (i.e. lowest cost per hour to operate).

```
select *  
from hall_decorations  
order by energy_cost_per_hour  
limit 5;
```
