The Gingerbread House Competition wants to feature the top 3 builders who used the most distinct candy types in their designs....

Question 1: The Gingerbread House Competition wants to feature the builders who used at least 4 distinct candy types in their designs. How would you identify these builders?

```
SELECT
builder_name,
    count(DISTINCT(candy_type)) count_distinct_candy_types
from
gingerbread_designs
    group by builder_name
HAVING count(DISTINCT(candy_type))>3;
```
